Welcome

Dear colleagues,

It is a great pleasure and honour to welcome you to the 31st Annual Conference of the European Association of Labour Economists (EALE) at Uppsala University.

This year we are very proud to host Barbara Petrongolo (Queen Mary University) and Philipp Kircher (European University Institute) as keynote speakers. Three exciting invited sessions are on the program covering the following topics: Economics of crime, Technology and the labour market and Immigration and society – past and present. This year we are also introducing a 3 parallel Flash talk session covering the following topics: Intergenerational mobility, Gender and family and Design of labour markets and education tools. In a flash talk session, each speaker will have 5 minutes to present along with one slide followed by 5 minutes of discussion. Chairs will enforce the time/slide rule vigorously. There will be a few minutes for additional discussion at the end.

The programme committee selected 370 research papers out of 697 submissions. These submissions originated from 47 countries around the world. 269 of them will be presented in 76 parallel sessions and 97 in 4 poster sessions. Note that this year we also have 5 job market sessions.

We hope that you will have some time to enjoy Uppsala. The city of Uppsala has a rich history, with a significant position in the political, religious and academic life of Sweden extending back to the time of the Vikings. Among the historical sights, you will find Uppsala Cathedral, the largest cathedral in Scandinavia, and the University museum Gustavianum with its famous Anatomical Theatre. We wish you an inspiring and pleasant time in Uppsala.

Local organizers of the 31st EALE Conference

Uppsala University

Uppsala University is the oldest established university in the Nordic countries, founded in 1477. With more than 40 000 students and nearly 5 000 researchers and teachers, Uppsala University is one of the biggest and most es-teemed universities in Sweden. This is evident with its solid international ranking every year, aspiring entrepre-neurs, and a great number of discoveries least to mention Ångström, Celsius and Linnaeus. Among its alumni, there have been 15 Nobelists, 8 of whom received the award for the work done while in the university.

**Bundesagentur
für Arbeit**

The Federal Employment Agency (Bundesagentur für Arbeit - BA) is the largest provider of labour market services in Germany. It has a network of more than 700 agencies and branch offices nationwide. Our most important tasks are job and training placement, career counselling and providing benefits replacing employment income such as unemployment benefit and insolvency payments. The Family Benefits Office (Familienkasse), which provides child benefit, is also part of the Federal Employment Agency.

BANCA D'ITALIA
EURO SISTEMA

The Bank of Italy is the central bank of the Republic of Italy. It is a public-law institution regulated by national and European legislation. It is an integral part of the Eurosystem, which is made up of the national central banks of the euro area and the European Central Bank. The Eurosystem and the central banks of the member states of the European Union that have not adopted the euro make up the European System of Central Banks.

The Bank pursues aims in the general interest in the sector of money and finance: price stability, which is the main objective of the Eurosystem under the Treaty on the Functioning of the European Union; the stability and efficiency of the financial system, thus implementing the principle of the protection of savings embodied in the Constitution (Article 47 states "The Republic encourages and protects saving in all its forms, it regulates, coordinates and controls the provision of credit"); and the other duties entrusted to it by Italian law.

De Nederlandsche Bank

De Nederlandsche Bank (DNB) is a public limited company whose day-to-day policy rests with the Governing Board. Being an NV, DNB has a Supervisory Board. In addition, there is an advisory body called the Bank Council (Bankraad).

DNB seeks to safeguard financial stability and thus contributes to sustainable prosperity in the Netherlands.

As an independent central bank, supervisory authority and resolution authority, DNB works in tandem with its European partners to achieve:

- price stability and a balanced macroeconomic development in Europe;
- a shock-resilient financial system and a secure, reliable and efficient payment system; and
- strong and sound financial institutions that meet their obligations and commitments and can be orderly resolved if needed.

By issuing independent economic advice, DNB strengthens policies aimed at its primary targets.

Frisch Centre

The Ragnar Frisch Centre for Economic Research is an independent research institution founded by the University of Oslo and operational from 1 January 1999.

The Frisch Centre conducts economic research in co-operation with the **Department of Economics** at the University of Oslo. Research at the Frisch Centre covers a wide range of topics, mainly within four major areas:

- Labour market and education,
- Environment and energy,
- Public economics and productivity,
- Health Economics.

Gender in local labour markets

Barbara Petrongolo, Queen Mary University, UK

Introduction/Chair: **Oskar Nordström Skans**, Uppsala University, Sweden

Barbara Petrongolo is Professor of Economics at Queen Mary University, Director of the CEPR Labour Economics Programme and Research Associate at the Centre for Economic Performance of the London School of Economics. She has previously held positions at the London School of Economics, the Paris School of Economics and the University of Carlos III (Madrid).

Her main area of interest is applied labour economics. She has worked extensively on the performance of labour markets with job search frictions, with applications to unemployment dynamics, welfare policy and interdependencies across local labour markets. She has also carried out research on the causes and characteristics of gender inequalities in labour market outcomes, in a historical perspective and across countries, with emphasis on the role of employment selection mechanisms, structural transformation, and interactions within the household

Meet and Greet Breakfast Job Market Candidates

Saturday, 21 September 2019, 08.00 – 09.00

At the annual conferences, EALE will facilitate in job market sessions that offer job market candidates whose research is in the field of Labour Economics, a platform for presenting their job market paper. This presentation also enables candidates to prepare for the US Job Market. During the conference we also organize a meeting moment where job market candidates and conference participants can meet and greet in an informal way.

For organisational reasons you are requested to register for attending this 'Meet and Greet Breakfast' by sending an e-mail to eale-sbe@maastrichtuniversity.nl. After your registration you will receive details on the location of this event.

If you wish to hold interviews during the EALE conference with one of our candidates you should get in touch with eale-sbe@maastrichtuniversity.nl.

Online job search - New avenues for (experimental) research

Philipp Kircher, (European University Institute) Gender in local labour markets
Introduction/Chair: **Erik Plug**, University of Amsterdam

Philipp Kircher holds the position of professor of economics at the European University Institute and the University of Edinburgh. He received his PhD from the University of Bonn in 2006, and previously held positions at the University of Pennsylvania, Oxford and the London School of Economics. He has been managing editor and currently serves as chairman of the Review of Economic Studies. His research focusses on the consequences of search frictions in labor markets, in particular regarding wage setting and assignment of workers to jobs. His papers have been published in the American Economic Review, Econometrica, the Journal of Political Economy, the Review of Economic Studies, and the Quarterly Journal of Economics, among others. His research is currently supported by an ERC consolidator grant and has previously been funded by an ERC starting grant, by the ESRC, and by the NSF.

This lecture is sponsored by:

17.45 – 18.15 EALE general assembly meeting & closing session 📍 Room: Main Building Aula

The EALE General Assembly Meeting is a general meeting for all participants/members and is chaired by the President of EALE. During this meeting we will present information about the association and future conferences.

Conference dinner & awards ceremony

Saturday, 21 September, 19.30 – 00.00

Location: Uppsala Castle

You will enjoy a seated dinner in 'Rikssalen' at the beautiful historical Uppsala Castle. During the dinner, we will have an awards ceremony. Please make sure to wear your name badge!

History

Gustav Vasa began construction of Uppsala Slott in 1549, and the castle was the location of a major event of Swedish history known as the "Riksmöte". Gustav Vasa started his politically vital tour ("Eriksgata") of the realm of Sweden from Uppsala Slott, and the castle was destined to play a major role for many years in the history of Sweden and of Uppsala.

Important events that have taken place at the castle include "Sturemorden" in 1567 (the murder by the mentally ill King Erik XIV of several noblemen accused of treason), and the decision by Gustav II Adolf that Sweden should participate in what would later develop into the Thirty Years' War. It was in the Rikssal in the castle that Schering Rosenhane announced the abdication of Queen Kristina on 6 June, 1654.

The castle was seriously damaged by fire in 1702, being reduced essentially to a ruin. Reconstruction took many years, and was indeed hampered by the remains of the castle being used as a quarry for stone to be used in building Stockholm Palace.

The castle was the administrative centre of Uppland for many years, and is today the residence of the County Governor of Uppsala County.

Rikssalen, the former Hall of State, whose uses have included that of drying closet for the governor's wife, was restored in 1932 and is now Uppsala's most glittering festive location.

Prizes and awards

Awards ceremony will take place during the conference dinner

EALE Prizes

EALE Best Poster Award

EALE grants an award for the best poster presented at the conference. This prize is awarded by a jury to the best designed poster presented at the conference. A jury consisting of 4 members of the Executive Committee of EALE will evaluate the quality of the posters using mainly the following three criteria: clarity, self-explanatory and layout. The prize is € 500.

Prize Committee: Michèle Belot, Arnaud Chevalier, Kristiina Huttunen, Erik Plug

EALE Young Labour Economist Prize

The prize of € 500 is available for a single authored paper written by someone who has no PhD or received a PhD no longer than 3 years ago. A jury consisting of the EALE president and two additional Executive Committee Members of EALE will judge the accepted and presented papers eligible for this competition.

Prize Committee: Peter Fredriksson, Sandra McNally, Helena Skyt Nielsen, Erik Plug
