Welcome

Dear colleagues,

It is a great pleasure and honour to welcome you to the 30th Annual Conference of the European Association of Labour Economists (EALE) at the Lyon Convention Centre.

This year we are very proud to host Sascha O. Becker (University of Warwick) and Roland G. Fryer (Harvard University) as keynote speakers. Three exciting invited sessions are on the program covering the following topics: Gender Identity; The integration of migrants: a challenge for Europe; Field experiments on labour markets.

The programme committee selected 417 research papers out of 793 submissions. These submissions originated from 50 countries around the world. 309 of them will be presented in 84 parallel sessions and 100 in 5 poster sessions. Note that this year we also have three job market sessions.

We hope that you will have some time to enjoy Lyon, discover its architectural heritage, and experience Lyon's broad range of gastronomy.

We wish you an inspiring and pleasant time in Lyon.

About your EALE host

GATE

GATE is a major research center in economics affiliated to CNRS (National Center for Scientific Research), University Lumière Lyon 2, University Claude Bernard Lyon 1, University Jean Monnet St-Etienne and Ecole Normale Supérieure de Lyon. It is associated with the "Laboratoires d'Excellence" CORTEX (Construction, Cognitive Function, Rehabilitation and Repair of the Cortex) and IMU (Intelligence of Urban Worlds) within the French Initiatives of Excellence program.

The main research topics include decision-making, individual and social preferences, coordination, collective choice and social interactions, labor economics, the evaluation of public policies, economic geography, health economics, innovation economics, macroeconomics and history of economic analysis.

Resources

- GATE-LAB, established in 2015, is an Experimental Platform which includes a behavioral lab with 32 computers, an electrophysiological lab, an eye tracking lab and a mobile lab for carrying out a variety of experiments in the laboratory and in the field. It provides advanced facilities for GATE researchers who conduct experiments on decision-making and develop research programs in behavioral economics.
- The Associated International Laboratory CHINEQ, "Inequalities in China: empirical and experimental approaches", is a collaborative research initiative between GATE and the School of Business at Beijing Normal University. It aims at promoting the development of research collaboration on the theme of inequalities in China and to provide innovative perspectives on the issues of production and transmission of inequalities in a rapidly changing environment.
- GATE Lyon Saint-Etienne is home to the EuroLIO valuation unit of Jean Monnet University (European Localized Innovation Observatory). Its engineers provide studies based on geospatial data to answer specific needs of diagnosis in the field of innovation and public policy evaluation.

Partnerships

GATE Lyon-St-Etienne develops international research cooperation with more than 60 foreign universities including: the University of California at Santa Barbara, the Appalachian State University, George Mason University, the University of Sydney, Monash University, New York University Abu Dhabi, the University of Amsterdam, Laval University of Quebec, Beijing Normal University, Aarhus School of Business, and the University of São Paulo.

|  | <p>ADRES (Association for the Development of Research in Economics and Statistics)</p> <p>The ADRES aims at supporting the circulation of ideas and communication within the French community of theoretical and quantitative economists and statisticians. The activities of the ADRES consist in:</p> <ul style="list-style-type: none"> • organizing regular seminars and conferences, • publishing a journal, Annals of Economy and Statistics, • contributing to the organization and the funding of conferences, • organizing an annual meeting for young doctors on the job labour market. |
|  | <p>IDEXLYON</p> <p>IDEXLYON project is the “excellence Initiative” label awarded to the Université de Lyon in February 2017 by the French government. Through the IDEXLYON project, the Université de Lyon aims to strengthen the excellence and the attractiveness of the Lyon Saint-Etienne site by providing additional resources to support innovative projects and new initiatives for students and researchers.</p> |
|  | <p>France Stratégie</p> <p>France Stratégie is a government policy institute devoted to assessing different policy options and making recommendations to the prime Minister. It also anticipates future trends affecting the economy and society by serving as a forum for debating topical issues and providing a strategic vision for the country as a whole. Combining breadth with depth, its research covers four main fields: employment, sustainable development, economics and social issues.</p> |

| | |
|---|--|
|  | <p>Pôle Emploi</p> <p>Pôle Emploi is a French governmental agency that registers unemployed people, helps them find jobs and provides them with financial aid and benefits. Pôle emploi also registers job offers, advises companies on their hiring policy and connects them with job seekers. The agency employs more than 54,000 employees.</p> |
|  | <p>La Métropole de Lyon</p> <p>Lyon Métropole, or Greater Lyon (Grand Lyon), is a French territorial collectivity located in the east-central region of Auvergne-Rhône-Alpes. Encompassing the city of Lyon and most of its suburbs, it has jurisdiction as both a department and a métropole, taking the territory out of the purview of the department of Rhône. Its priority: the economic development of the Greater Lyon territory (France), to improve the quality of life of its residents and to make the day-to-day life of professionals easier. Lyon Métropole carries out far-reaching actions to promote the territory’s economic dynamism. To find out all about the expertise and actions of the Métropole de Lyon, go to the dedicated website.</p> |
|  | <p>ENS de Lyon</p> <p>The École Normale Supérieure de Lyon is an elite French public institution that trains professors, researchers, senior civil servants as well as business and political leaders. Students choose their courses and split their time between training and research in sciences and humanities. Built on the tradition of the ENS de Fontenay-Saint-Cloud, founded in 1880, the ENS de Lyon also focuses on educational research. It is a symbol of French Republican meritocracy and it remains committed today to disseminating knowledge to the widest audience and to promoting equal opportunity.</p> <p>The ENS de Lyon is part of the Université de Lyon and supports quality research that has earned it a Fields medal (Cedric Villani, 2010) and many CNRS medals. It encourages interdisciplinary studies to foster a better understanding of complex contemporary issues.</p> |

Welcome reception

Thursday, 13 September 2018, 18.15 – 20.00

Forum 1

During the Welcome reception, we will serve wine, water, juice and finger foods. Still hungry and thirsty? Visit the variety of the local restaurants in Lyon afterwards.

Designed by the architect Renzo Piano, the Centre de Congrès de Lyon is situated in the heart of the Cité Internationale with its hotels, restaurants, casino and numerous entertainment facilities. With magnificent views over the Rhone river, the hills of Lyon and the beautiful 117-hectare Tête d'Or park, the Lyon Convention Centre offers 25,000m² of modular event space, including 3 amphitheatres with capacities ranging from 300 to 3,000 people, making this event complex truly unique in Europe.

📍 Auditorium Lumière

Frisch-Tinbergen Lecture

When black lives matter: racial differences in police use of force and what to do about it

Roland G. Fryer, Harvard University, United States of America

Introduction/Chair: Marie Claire Villeval, GATE, CNRS, France

Roland G. Fryer, Jr. is the Henry Lee Professor of Economics at Harvard University and faculty director of the Education Innovation Laboratory (EdLabs). Fryer's research combines economic theory, empirical evidence, and randomized experiments to help design more effective government policies. His work on education, inequality, and race has been widely cited in media outlets and Congressional testimony.

Professor Fryer was awarded a MacArthur "Genius" Fellowship and the John Bates Clark Medal – given by the American Economic Association to the best American Economist under age 40. Among other honors, he is a fellow of the American Academy of Arts and Sciences and a recipient of the Calvó-Armengol Prize and the Presidential Early Career Award for Scientists and Engineers. At age 30, he became the youngest African-American to receive tenure at Harvard.

His current research focuses on education reform, social interactions, and police use of force. Before coming to Harvard, Fryer worked at McDonald's (drive-thru, not corporate).

This lecture is sponsored by:

Meet and Greet Breakfast Job Market Candidates

Saturday, 15 September 2018, 08.00 – 09.00

At the annual conferences, EALE will facilitate in job market sessions that offer job market candidates whose research is in the field of Labour Economics, a platform for presenting their job market paper. This presentation also enables candidates to prepare for the US Job Market. During the conference we also organize a meeting moment where job market candidates and conference participants can meet and greet in an informal way.

For organisational reasons you are requested to register for attending this 'Meet and Greet Breakfast' by sending an e-mail to eale-sbe@maastrichtuniversity.nl. After your registration you will receive details on the location of this event.

If you wish to hold interviews during the EALE conference with one of our candidates you should get in touch with eale-sbe@maastrichtuniversity.nl.

Please find our candidates listed below in alphabetical order.

The editors of Labour Economics are pleased to announce the 2018 winner of the 12th "EALE Labour Economics Prize" for the best paper published in Labour Economics during 2017:

Dual Labor Markets and Labor Protection in an Estimated Search and Matching Model

Mauricio Tejada

Labour Economics. Volume 46. pp. 26-46

This paper uses a structural approach to obtain new insights into the interaction between the use of labor protection and temporary contract policies. It explains the empirical positive relationship between firing costs and the use of temporary contracts in the economy as an equilibrium outcome, with endogenous temporary and permanent job vacancies, and explores welfare implications. An important and relevant result is that dual labour market regimes of temporary versus permanent contracts may actually increase welfare.

The paper combines several elements that characterize a good study: (i) It is motivated by a very important issue, (ii) It develops a strong theoretical framework to understand equilibrium effects of labour market policy, (iii) it estimates the model thoroughly discussing identification, (iv) and uses the quantitative model to analyse welfare and explore interesting counterfactuals.
